-  Major : Information Technology

Education

Diploma in Information Technology

Tunku Abdul Rahman University of Management and Technology (TAR UMT)

CGPA: 3.98 | Expected Graduation: June 2025

Computer Science Society TAR UMT 2024/2025

Technical Resource Director

- Managed technical resources, ensuring smooth execution of events and workshops for the student community.

Google Developer Student Club TAR UMT 2023/2024

Technical Team Member

- Organized and led hands-on workshops focused on leveraging Google Cloud technologies, such as creating instances using Google Cloud Compute Engine.

Experience

Web Developer and Webmaster

Malaysia Trains & Rail Enthusiasts (MTREC)

August 2022 – Now

Real-time Train Tracker Map & Crowdsourced Train Spotting System

- Created Malaysia's first publicly available real-time train tracker map using the [GTFS-R](#) feed, gaining [recognition](#) from the Ministry of Transport Malaysia.
- Developed a crowdsourced train spotting system with 99.999% reliability, highly appreciated by the community.
- Managed server performance, maintained the website, and mitigated DDoS attacks, ensuring system security for 240,000 monthly visitors.

Junior Web Developer (Internship)

Frontdesk Sdn. Bhd.

October 2024 – January 2025

LHDN Compliance E-Invoice & Third-Party Accounting Applications Integration

- Engineered and integrated third-party accounting applications (e.g., SQL Accounting) to automate synchronization and streamline invoice issuance and compliance processes.
- Enhanced client accounting workflows by implementing eInvoice features using the LHDN SDK and played a key role in frontend development for a travel itinerary portal, improving user interface and experience.

Junior Web Developer

Emzee Lab Sdn. Bhd.

March 2023 – June 2023

Products Display System

- Developed a Products Display System that enables business users to add or modify products, allowing customers to view them directly on the company website.
